

Fig.1.block diagram

Fig.2

Simple Bar Mean of accuracy by group

group	Mean accuracy
QKFMSF	90.00
QPE-AFA	88.00

Fig.1.block diagram

A bar chart titled "Simple Bar Mean of accuracy by group". The y-axis is labeled "Mean accuracy" and ranges from 0.00 to 100.00 in increments of 20.00. The x-axis is labeled "group" and has two categories: "RP ASE" and "VFC". The bar for "RP ASE" has a height of approximately 88.00, and the bar for "VFC" has a height of approximately 92.00.

group	Mean accuracy
RP ASE	88.00
VFC	92.00
